

Help students improve their vision of God by challenging them to spot God facts. See if they can reach a goal of 101 facts in three months.

Post four full-sized posterboards on the classroom wall. Number them 1 to 101 (25 on three posters, 26 on one). As the children think of a fact about God during the lesson, songs, discussion, etc., print it on the list. You may need to give them a question from time to time to draw a fact from them. If the fact comes from a specific verse stated in class add the reference. If the fact is related to creation add a C in parenthesis. If the fact is learned through Jesus' life add a J in parenthesis. If the fact becomes evident through something that happens in the child's life add a P.

(See sample on back.)

—E. L.

God Facts!

1. God is the Creator. Gen. 1:1 (C)
2. God made all life. Gen. 1-2 (C)
3. God is my salvation. Ex. 15:2 (P)
